Work Experience

Tarellia Solution INC

Software Developer

August 22 2022 - October 15, 2023

Project:

- Web App Accounting System
 - a. Front end: HTML, CSS, Javascript, JQuery
 - b. Backend: C#, .NET Framework MVC, LINQ Query, Rest API
 - c. Reporting: Crystal Reports
 - d. Database: MySQL, MSSQL, SQL Server

Highlights:

- Developed and maintained web applications using C# and ASP.NET MVC framework.
- Collaborated using SVN (Similar to Azure Devops) with a team of developers, designers, and stakeholders to gather requirements and design scalable solutions.
- Implemented and optimized MVC architecture to enhance application performance and maintainability.
- Designed and implemented database schemas using SQL Server to store and retrieve application data.
- Create or modify existing SQL Scripts / Objects according to requirements - Views, Temp Tables, CTE, Stored procs, Functions and Jobs.
- Created responsive user interfaces using HTML, CSS, and JavaScript, ensuring cross-browser compatibility and accessibility.
- Integrated third-party APIs and libraries for enhanced functionality, such as payment gateways and social media integrations.
- Deploy and configure Web App in IIS.
- Conducted code reviews and performed unit testing to ensure high-quality and bug-free code.
- Improved application security by implementing authentication and authorization mechanisms, including role-based access control.
- Provided technical support and troubleshooting for production systems, resolving issues promptly to minimize downtime.
- Actively participated in the Agile development process, attending daily stand-up meetings and contributing to sprint planning and retrospectives.

I hereby certify that all the above information is true and correct to the best of my knowledge and belief.
