EXPERIENCE

Uplift Code Camp

Student

July 2023 - Dec 2023

- A 6-month intensive coding bootcamp where we get to learn how to do full-stack web development using the MERN stack. In this bootcamp we learned Git, HTML, CSS, JavaScript, React, Node.js, Express.js and MongoDB. We also learned related concepts such as database modeling, agile methodologies, software development patterns and more.

Microchip Technology Operations (Philippines) Corporation

Planner

Calamba, Laguna, Philippines

Dec 2021 - July 2023

- I prioritized schedules to meet project goals and overall customer satisfaction. I worked directly with production personnel to resolve production scheduling issues and conflicts. I engaged in both long and short-term project planning, strategizing for on-time, high-quality deliverables. I managed the successful day-to-day operations of projects by maximizing productivity from available resources.

DENSO Philippines Corporation

Planner

Calamba, Laguna, Philippines

July 2018 - Dec 2021

- I effectively balanced my planning efforts with day-to-day demands. I utilized my inventory knowledge to settle discrepancies in a timely and effective manner. I planned inventory management processes properly to avoid shortages and excesses. I analyzed back orders, current orders, and upcoming orders effectively to prioritize, plan, and schedule the production operations.

SKILLS

Front End: HTML, CSS, JavaScript, React JS, Bootstrap, Material UI, Sass
Back End: Node JS, Express JS
Database: MongoDB
Others: Git, GitHub, GitLab, Postman, VS Code, Netlify
Soft Skills: Communication, Adaptability, Visual Thinking, Collaboration, Enthusiasm, Patience, Time Management

PROJECTS

Munch-On CSS, React JS, Node JS, Express JS, MongoDB <https://munch-on-meal-planner.netlify.app/>
A Fullstack App made using MERN, it can be used to save you time for meal planning and can also keep track of your pantry and groceries.

LinkLounge CSS, React JS, Node JS, Express JS, Mongo DB <https://linklounge.vercel.app/>
A Fullstack App made using MERN, it hopes to use social media as a tool to build friends without toxicity.

React PokeDex CSS, React JS <https://pokedex-of-kirk.netlify.app/>
A Pokedex made using React, a perfect way of learning to incorporate API's on a project and also a great way to brush up your pokemon knowledge if you wanna catch them all.

MovieTrack CSS, React JS <https://movietrack-database.netlify.app/>
A Movie Database made using React where you can search movies and put it on a list if you watched it already or you are done watching, this will serve as a reminder for your next movie binge.

The Pacquiao Pac-Off CSS, JavaScript <https://pac-off.netlify.app/>
A Clone of the Popular Game Pac-Man, created using JavaScript the goal is for Manny Pacquiao to complete all the gloves before his opponents catch up to him, if he reach the JavaScript logo he gets a power up that lets him take on his opponents.

EDUCATION

Uplift Code Camp

Full Stack Web Development

July 2023 - Dec 2023

De La Salle University - Dasmariñas

BS Industrial Engineering

Dasmariñas, Cavite, Philippines

Jun 2013 - Jun 2018

CERTIFICATES

Full Stack Web Development Program

Certificate of Completion

Uplift Code Camp

Dec 2023

JavaScript Algorithms and Data Structures

Certificate of Completion

freeCodeCamp

Nov 2023

Responsive Web Design

Certificate of Completion

freeCodeCamp

Oct 2023
