

Ralph Lorenz G. Lozada

Full Stack Developer

Bacolod City, PH | +63 948 592 9813 | bizralph@hotmail.com

Summary

As part of working with codes, I make sure I review them and optimize them to be more readable. I have been using frameworks like Ionic, Angular, and VueJs on the Frontend. While on the Backend, I use and modify API built on Go language or Fastify with OpenAPI specifications and MySQL/PostgreSQL for databases. I also manage the compilation and uploading of files to the server. I meet with the clients to discuss any implementation to the project.

Experience

Senti Techlabs Inc.
(Cloud Engineer)

BGC Taguig City
Mar 2023 - Current

- Analysis, design, development, testing and maintenance of the core modules and functionalities.
- Produced clean, readable, and efficient code based on project specifications.
- Provide feedback on other's work via code reviews. Troubleshoot, debug, fix, and upgrade existing code. Build reusable code and libraries that can be used in the future.
- Using Google Cloud Platform on projects. Using Fastify framework with OpenAPI Specification for backend services.

HesedovationPH
(Full Stack Developer)

Singapore
Mar 2019 - Mar 2023
